Video: How to Feed Venus flytraps Indoors

Venus flytraps need to eat often to stay healthy and grow. Feed Venus flytraps live food or trick the plant into thinking the food is alive!

In the wild Venus flytraps – don't actually eat a lot of flies. Pause the video at **2:13** to study the pie chart. Label and color each of the sections to represent the wild Venus flytrap's diet.

1. Summarize how to feed Venus flytraps dried blood worms in 5 steps:
